BACKGROUND

- Communicating clearly and effectively about one's research – particularly within a limited time frame – is a key skill, yet many researchers at all levels struggle with doing this well.
- As we continue to increase our focus on communicating research to varied audiences, the ability to explain complicated studies and findings in ways that are comprehensible is particularly valuable.
- With these skills in mind, NERA is once again hosting its Three Minute Thesis competition at the 2023 conference.

WHAT IS THE THREE MINUTE THESIS?

- The Three Minute Thesis (3MT) is an academic competition that assists graduate students and professionals with fostering effective presentation and communication skills.
- Participants will have three minutes to explain the breadth and significance of their research project to a non-specialist audience.
